about us

Ariamehr Company

Ariamehr Company is recognized as one of the leading and most reputable companies in the production and distribution of medical and healthcare products in Iran. By utilizing state-of-the-art technology and high-quality raw materials, the company produces and markets a wide range of products in the field of hospital and medical equipment.

Ariamehr has established itself as a pioneer in the market with the production and distribution of various products such as latex gloves, hospital clothing, disposable bed sheets, medical gowns, alcohol pads, sterile gauze, and injection syringes. Emphasizing quality, safety, and hygiene, the company consistently strives to improve its products and ensure customer satisfaction.

Vision

Ariamehr Company aims to maintain and enhance its position in both domestic and international markets by improving the quality of its products. It aspires to be recognized as one of the largest producers of medical equipment in the region in the near future.

Latex Gloves

The latex gloves produced by Ariamehr are made from high-quality natural raw materials. These gloves are popular in medical and laboratory environments due to their elasticity and appropriate strength. Features include:

- Resistance to tearing and puncturing
- Hypoallergenic and non-irritant

Hospital Clothing

This category includes both disposable and washable garments designed for use in hospitals and healthcare centers. Disposable hospital clothing is made from special fabrics that prevent contamination and infection from reaching the wearer's body.

- Comfort and lightness: These garments are designed to provide maximum comfort for healthcare workers and patients, promoting good body ventilation.

Disposable Bed Sheets

Disposable bed sheets are another practical product from Ariamehr, widely used in hospitals, clinics, and healthcare facilities.

- Prevention of infection and contamination: The use of disposable bed sheets minimizes the risk of infection and contamination transmission.
- Ease of use and replacement: Disposable bed sheets eliminate the need for washing and maintenance, making them quick and easy to use.

Medical Gowns

Ariamehr's medical gowns are manufactured according to strict hygiene standards and scientific designs. These products are designed to protect healthcare workers from bodily fluids, contaminants, and chemicals, with the following features:

- Waterproof and impermeable fabrics: The gowns are made from special fabrics that prevent the penetration of liquids and microbes.
- Comfort and safety: The gowns are designed to provide protection while ensuring comfort and freedom of movement for healthcare workers.

Alcohol Pads

The alcohol pads produced by Ariamehr are made using alcohol with an appropriate concentration for quick disinfection of skin and surfaces.

Features include:

- Strong and fast disinfection: The alcohol used in these pads quickly and effectively eliminates microbes and bacteria.
- Hygienic packaging: Each pad is individually packaged to prevent contamination before use.
- Wide application: These pads are suitable for cleaning skin before injections, disinfecting wounds, and use in healthcare settings.

Sterile Gauze

Sterile gauze is an essential medical item used for dressing wounds, surgeries, and protecting open wounds. Features of Ariamehr's sterile gauze include:

- Complete sterility: This product is carefully packaged under strict hygienic conditions to ensure safe use in medical environments.
- High absorbency: Ariamehr's sterile gauze has high absorption capabilities for blood and wound secretions, aiding in faster healing.

Injection Syringes

Another vital product from Ariamehr, injection syringes are produced with exceptional quality. These syringes come in various capacities and sizes, meeting international standards. Some features include:

- Precise and safe design: The needles are made from stainless steel and designed ergonomically for easy and safe use.
- Leak-proof and durable: The syringes are designed with a mechanism to prevent medication leakage and have high resistance to pressure.
- Sterile and hygienic: Each syringe is individually sterilized and packaged to prevent contamination.
